

Mario Dylan LOKOSSOU SOTON

Full-Stack Developer · AI Integration · Software Architecture Student

3rd-year Software Architecture student at ESGIS Cotonou. Building fullstack web apps and AI-powered tools — LLM APIs, chatbots, RAG systems. Seeking an internship or junior role to contribute to real engineering challenges.

dylanelokossousoton@gmail.com · mariolokossou.com · Cotonou, Bénin · linkedin: @mariolokossou · github: @Mario-sh · +229 01 94 11 83 20

TECHNICAL SKILLS

PHP Backend Development

Secure auth (hashing, tokens), sessions, CRUD, REST APIs, MVC — Laravel.

Frontend — React & Tailwind

Component architecture, hooks, state management, responsive UIs, REST API integration.

AI Integration — LLM APIs

Chatbots & assistants via OpenAI/Anthropic APIs. Prompt engineering, context management, web embedding.

Python — Data & Scripting

CLI apps with Pandas. Dataset manipulation, complex logic structuring.

Algorithms & OOP — C / Java

Minesweeper (C), Sudoku (Java). Low-level and object-oriented foundations.

DevOps & Tools

Docker, Git/GitHub, VS Code, AI-assisted coding (Claude Code).

STACK

JS · TS · React · PHP · Laravel · Python · MySQL · Tailwind · Docker · Git · Django · Pandas · C/C++ · Java · Shell

LANGUAGES

French — Native

English — Professional

(tech docs, emails, international communication)

STRENGTHS

- Autonomous learner
- Delivers on time
- Adaptable
- Team player
- Detail-oriented

INTERESTS

Hackathons · AI Engineering · Content Creation · Design · Basketball

EDUCATION

Bachelor's — Software Architecture (Year 3)

ESGIS Bénin, Cotonou · Sept. 2025 — Aug. 2026

Pivoted from Web Dev to Software Architecture to deepen engineering foundations.

Bachelor's — Web Development (Year 1)

HENSA Bénin, Godomey · 2025

Baccalauréat — Sciences Series D

CPEG La Liberté, Womey · 2024

PROJECTS & EXPERIENCE

AI Hackathon — Land Registry Solution

ASIN Hackathon, Bénin · 2025

Built an AI-powered civic tech solution for land property management in Bénin. Role: frontend developer & web designer.

LLM Chatbots & AI Assistant Integration

Personal / Client Projects · 2025–2026

Integrated intelligent chatbots into web apps using OpenAI & Anthropic APIs. Prompt engineering, context management, front-end embedding.

Fullstack Web Projects — PMEs & Organizations

Freelance · Dylan Web Studio · 2024–2026

Delivered client websites using React, Laravel, MySQL, Tailwind CSS.

TheSocialNetwork — PHP/AJAX

University Group Project · ESGIS · 2025

Facebook-style social network in PHP/AJAX. Led bug fixing and Git management.

Digital Communication Management

E-commerce Company, Cotonou · 2024–2025

Community management and advertising campaigns for a digital products company.
